

01 Clean area with water and ensure that the skin is dry. (Attention: The flange extender will not stick to wet skin)

02 Remove the clear release liner (Symbol No. 1) as indicated.

03 Position Silex® where required, overlapping the edge of the flange and your skin.

04 Remove the paper release liner (Symbol No.2) as indicated and smooth down.

Trio Silex® The advanced, soft silicone gel flange extenders:

- Responsive Silicone® flange extender
- Ultra thin, like second skin with instant adhesion
- Waterproof and non-absorbent, perfect for swimming and bathing
- Allows skin to breath, reducing risk of skin irritation
- Removes in one piece leaving no residue
